## **BULLETIN #TTSB10/41202**

### **REFERENCE: Bearing Frame Oil**

It is recommended that **Mobil SHC® 627 or an exact equivalent** be used in all oil lubricated bearing frames manufactured by T&T Pump Co. Inc. However, it is NOT recommended that two different oils be mixed. Please drain the existing oil from the frame before filling. Refer to the H Series O&M manual for proper oil levels.

**Note: The oil level must be viewed straight on and not viewed from an elevated angle.**

You can contact us by phone at 304-366-1300 or by emailing our [sales department](#).
