## **BULLETIN #TTSB8/070601**

### **Reference: GE Bearing Frame**

The advancement in bearing technology, specifically in manufacturing practices, has increased the dynamic load ratings of angular contact thrust bearings. This increase in load rating has allowed the use of smaller bearings to carry higher loads. As a result, T&T Pump Co. Inc. will begin phasing out the GE bearing frames. This frame will be replaced with either the E or G bearing frame as required.

You can contact us by phone at 304-366-1300 or by emailing our [sales department](#).
